OH WE FEELING SO HOT

HOPE  
WORLD

Everyone must have a caught-in-a-net desire that results from the instant in life when a psychological contract is broken. Even I, cannot ignore my own desire to make amends for the damage I caused to many of the Los Angeles residents of the San Fernando Valley by different means. Dr. Dre's "The Next Episode" song, "I'm gonna see you again. See you again. See you again." The bond will always be there, the hole also will, into the pain leading to happiness. It will be a world of memories and in my own words it will be exactly like what I imagined. But, it won't last forever.

With my breath held, I walk into my sea, walk into it I face myself who is crying beautifully and sorrowfully. Myself as that old woman — I'd like to go find him and tell him that I'd like to know more about you, today still. I remain with my heart within my voice unable to come out. Just circle around him that dark place, I'd like to be submerged in it, I'd like to go to it I'll be here today as well, circle around you again.

Since when have you been hurting me? Even you don't know. Could you mind your hurtling rule, cause outta mine just wanna blow? Mind Again, You're moving further away like this "I'm thinking though so should. Maybe the truth is that I'm not I want you to be outta my light, baby boy so that you could be outta my light, baby boy could be your night. So the smile I want you to be your night, baby boy could be your night. So the smile this night can be honest with you.

We're born in the moonlight. I ain't no contortionist. Come break me in the sunlight. Doctors  
make your heart. We're born to be sick, sick, sick, sick, sick. So it's got to be good, good, good,  
good, Come on! I'm gonna make you sick, it's how it's supposed to be. I'm gonna make you sick,  
I'm gonna make you sick, I'm gonna make you sick, I'm gonna make you sick, I'm gonna make you sick.  
It's like you're born to be sick. We're born to be sick, sick, sick, sick, sick. So it's got to be good, good, good,  
good, Come on! I'm gonna make you sick, it's how it's supposed to be. I'm gonna make you sick,  
I'm gonna make you sick, I'm gonna make you sick, I'm gonna make you sick, I'm gonna make you sick.

NOT ALL SUPERHEROES

**WEAR CAPES**

We're only seven. But we have you all now. After seven winters and three summers - off the tips of our fingers interlocked we got to heaven. Throw us across at me anymore we're not afraid anymore we are together forever. Even if someone stops me, walk toward me. We are forever bulletproof we got to heaven.

A standard linear barcode is positioned vertically on the right side of the page. It consists of vertical black bars of varying widths on a white background.

'Cause the window Opened one time with you and me Now my forever's  
tailing up Wondering if I could wait now How could I know I were  
drd wake up feeling more But I had already reached the shore Guess we  
were ships in the same night But we were ships in the night I'm wondering Are  
we my best friend Feels like a river rushing through my mind I wanna  
ask you if this is still us in my head My heart is pounding tonight I wonder

I'm sorry but I don't care or tell you how mere the fact that you can't escape the situation or success has anything to do with your humor is despicable and no. The \*\*\*\*\* who are listening are pissed and don't say hiuh there's going to be global so my

I'm sorry but I don't care or tell about how meddices your life is or about the fact that you can't escape the subtle offer being thrown them. Success has anything to do with your future, you're fucking great at being delusional no how? Your sense of humor is so bad, you fucked up at every fault, no? The \*\*\*\*\*'s whole listen to this song would get fucking pissed and run so fu<sup>ck</sup>in<sup>g</sup>ly fast there's no going back! I'll straight again, I'm global, so yo

Though I'm standing under the frozen sunset, I will walk towards you, one step at a time. Sigh. With a dark room without a single lighting, I thought I shouldn't use it, but it felt so damn lonely. This subtle noise, longing from the other, conditioner I don't even have, ~~but~~ that I think I'll break down, longing together, crying together, we're both the same, perhaps they move me when I meet you again, I'll look into your eyes and tell you I've missed you.
